Office Action Summary	Application No. 10/565,529	Applicant(s) BARANOV ET AL.	
	Examiner Michael J. Zanelli	Art Unit 3661	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3/18/09 has been entered. Claims 23, 24 and 26-55 are currently pending.

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 23, 24 and 26-55 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification as filed, including the original claims, disclosed specific information received/saved/provided by various subsystems, including "attitude" as originally claimed (see for example pages 5, 7-10, 12, 13). The amendment filed 3/18/09 changed the word "attitude" to --altitude-- (each occurrence) throughout the pending claims. The specification does not support this change nor does applicant make reference to this change or the necessity of this change in the remarks accompanying the amendment. With regards to the limitation

Art Unit: 3661

“from different available sources” added to claim 23 at lines 7-8, support for this language appears to be found in at least pages 6 and 18.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 23, 24 and 26-55 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A. As per claim 23, the following terms lack antecedence: “the set of the vorticity center paths” (line 62); “the delay time” (line 66); “the control plane” (line 70); “the generator wake vortex trajectory” (line 82); “the set of the generator vorticity danger areas” (line 86); “the flight parameters exceeding the admissible limits” (line 87); “the flight regulations” (line 89) and “the alert area” (line 90).

Essentially these deficiencies were indicated in the first Office action relative to original claim 25, which were corrected in the amendment filed 10/2/08, but not included in the amendment filed 3/18/09 in which claim 25 was incorporated into claim 23.

B. All claims depending from a rejected base claim are also rejected as containing the same deficiencies.

4. Claims 23, 24 and 26-55 are distinguishable over the prior art of record.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael J. Zanelli whose telephone number is (571)
